

# \* TSP-JR Almen Gage #2 \*

## The #2 Almen Gage Jr. THE ANALOG-STYLE ALMEN GAGE

The #2 Almen Gage Jr. is in an analog style that's ideal for general purpose shot peening and blast cleaning where digital accuracy is not a requirement.

The small size and light weight of the TSP-Jr (4" tall and less than ½ lb in weight) make it convenient for operators to use anywhere. The TSP-Jr has a 1 ¾" dial indicator with .0005 graduations for easy reading of the Almen strip are height.

The Jr. Also has many of the same features of the Electronics Inc. Original #2 Almen Gage Model TSP-3 including:

- Precision machining
- Durable hardcoat finish
- Patented magnetic grip
- Stem mounted indicator
- Meets MIL-S-13165
- Meets AMS-S-13165
